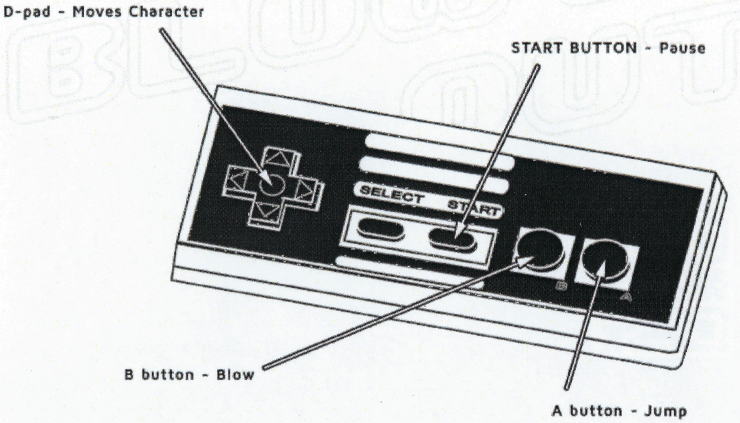
Can you blow out all of the candles on your birthday cake? Sounds too easy, right?

Try doing it while being chased by 1, 2, or 3 evil fireballs that want to take you down! And if that's not enough of a challenge, you should probably avoid running into the candles as well - fire can burn you!

If you can beat all 10 levels, there's a special birthday surprise at the end!



This game is not licensed by, distributed by, produced by, or developed by Nintendo.This game is produced and distributed by Greeting Carts, for play on the NES.
